Education

MBA (Information Technology)

SVKM's Narsee Monjee Institute of Management Studies (NMIMS), Mumbai
06/2023

Bachelor of Technology (CSE)

Uttaranchal University, Dehradun, Uttarakhand
06/2021

"Awarded the Gold Medal as the Top Performer of my Batch"

Experience

QASource

Senior Software Engineer, Chandigarh
06/2021 – Present

- Enhanced application robustness by developing solutions and addressing code inefficiencies.
 - Applied four-plus years of backend development expertise to deliver high-quality applications.
 - Collaborated with cross-functional teams to identify and prioritize project requirements, and delivered high-quality solutions.
 - Implemented robust testing and validation procedures to ensure code quality and minimize errors.
 - Performed user requirement analysis to inform software development initiatives.
 - Technical leadership and mentorship to junior team members.
-

Skills

Communication skills, Time management, Leadership, Presentation Skills, Team Management, Project Management, Agile Development, Commitment towards work

Technical Skills

- Programming Languages: Python, C, C++, Perl, HTML and CSS.
 - IT Constructs: Data Structures, DBMS and OOPS.
 - Development Tools: Jupyter Notebook, PyCharm, MSOffice, VS Code.
 - Database Language: SQL.
-

Training

ORGANIZATION NAME: DATAMITES, BANGALORE

DURATION: 2 MONTHS

- Learned about basics of Python, Data Science and Machine Learning algorithms such as Linear and Logistic regression, Decision Tree etc.
- Learned about different modules such as Pandas, Numpy, Scipy and Matplotlib in Python.

PROJECT DONE UNDER TRAINING: INX Future Inc Employee Performance

The following insights are expected from this project:

1. Department wise performances.
2. Top 3 Important Factors affecting employee performance.
3. A trained model which can predict the employee performance based on factors as inputs. This will be used to hire employees.
4. Recommendations to improve the employee performance based on insights from analysis.

Projects

Iris Classification

- Implementing a solution to classify species of Iris flowers using Machine Learning and Python.

Link of Project:

[https://github.com/VaibhavPandey190/machine-learning/blob/master/KMeans%20practical\(IRIS%20DATASET\).ipynb](https://github.com/VaibhavPandey190/machine-learning/blob/master/KMeans%20practical(IRIS%20DATASET).ipynb)

Virtual Assistant

- A virtual assistant capable of conversation and follow basic commands on the basis of user.
- The Project was made using Python and had Speech Recognition.
